

Čj. 69302/2024-UVCR  
Dear Mr.  
Prof. MUDr. Jiří Beran, CSc.

Dear Professor,

the Prime Minister of the Czech Republic received your electronic letter in which you sent documents with a summary of scientific information regarding some batches of the COVID-19 vaccine.

First of all, let me thank you for the trust you have placed in the Prime Minister. I regret that the Prime Minister cannot personally respond to all the correspondence he receives due to his high workload, but he is very interested in answering it, and therefore, on behalf of the Prime Minister's Cabinet, I am responding to your letter. We have accepted your suggestion, but unfortunately, I have to disappoint your expectations and inform you that the issue in question does not fall within the competence of the Office of the Government of the Czech Republic since, according to the provisions of Section 28 of Act No. 2/1969 Coll., on the establishment of ministries and other official bodies of state administration of the Czech Republic, as amended by later regulations, the Office of the Government of the Czech Republic is responsible for fulfilling tasks related to the professional, organizational and technical support of the activities of the government and its bodies.

This issue is dealt with at the government level by the Ministry of Health of the Czech Republic, to which we have forwarded your suggestion for direct processing under the identifier MZDRX01U9DF4. Please wait for a response from this department.

Dear Professor, thank you for your letter and interest in this issue. The Prime Minister and the entire government value citizens willing to share their opinions with others.

With best regards and best wishes

from Bc. Helena Khorel  
Mgr. Martina Toullová  
Head of the Administrative Support Department  
Communication Department
