

Att. Statsminister Mette Frederiksen
og Sundhedsminister Sophie Løhde
samt det danske folketing

Date: 25.11.2024

Meddelelse om ekstrem bekymring for mRNA-vacciners sikkerhed og kvalitet til statsministre og styrende myndigheder i de nordiske og baltiske lande samt Storbritannien.

Overdrevne niveauer af resterende kunstigt bakterielt plasmid-DNA i COVID-19 mRNA-vacciner identificeret i australske prøver¹, hvilket bekræfter data fra Frankrig, Tyskland, Canada og USA²⁻⁵.

Rester af lipidnanopartikler (LNP) indkapslet plasmid-DNA fra bakterier kan beskadige menneskeligt DNA, hvilket kan føre til en potentiel ændring af det menneskelige genom, kræft og andre ekstremt alvorlige tilstande.

Som en international gruppe af politikere og kvalificerede fagfolk er vi alvorligt bekymrede over virkningerne af COVID-19 mRNA-vacciner på vores befolkninger og opfordrer til, at de øjeblikkeligt suspenderes. Vi ønsker at rette jeres opmærksomhed mod tre kritiske spørgsmål vedrørende anvendelsen af mRNA-produkter, som har dybtgående konsekvenser for vores nationers borgers sundhed.

- COVID-19-vacciner blev aldrig testet for deres evne til at blokere smitte⁶. Derfor vildledte lægemiddelmyndigheder samt regeringer og statslige organer befolkningen for at presse dem til at acceptere disse produkter.
- COVID-19-vacciner resulterede i et hidtil uset niveau af rapporterede bivirkningere⁷, herunder dødsfald⁸. Reproducerbare analyser af offentlige data⁹⁻¹² viser, at det var et lotteri, hvilket batch en person modtog, og hvilke bivirkninger denne måtte have oplevet.
- Analyser foretaget af flere uafhængige forskere viser, at Pfizers og Modernas produkter var forurennet med varierende og hidtil usete niveauer af resterende bakterielt afledt plasmid-DNA fra deres dårligt kontrollerede fremstillingsprocesser¹⁻⁵.

Ovenstående punkter rejser kritiske, men ukvantificerede risici for menneskers sundhed, som systematisk er blevet undgået af de regulerende myndigheder, der har til opgave at føre tilsyn med dem. Derfor opfordrer vi på vegne af offentligheden til:

- Et øjeblikkeligt stop for brugen af mRNA-vacciner og en tilbagekaldelse af produktet.
- En uafhængig og gennemsigtig undersøgelse af deres godkendelse og brug.
- Videnskabelige beviser, der dokumenterer, at der absolut ingen risiko er for skader på menneskets DNA.

For mere detaljeret information se venligst de medfølgende videnskabelige resuméer. På baggrund af disse oplysninger beder vi om klare svar på følgende spørgsmål. Sikre og effektive vacciner er afgørende:

1. Hvad skal der til for at iværksætte en uafhængig og gennemsigtig offentlig og retsmedicinsk undersøgelse af de lovgivningsmæssige processer, der fører til godkendelse af disse produkter?
2. Hvad forhindrer ministeren i at igangsætte og prioritere forskning i potentielle forbindelser mellem mRNA-vacciner og kræft, infertilitet eller andre akutte, kroniske og genetiske sygdomme?

Med denne videnskabeligt underbyggede trussel mod menneskers nuværende og fremtidige generationers sundhed har vi identificeret risikoen. Vi beder jer respektfuldt om at handle i jeres lands borgers interesse, som I blev valgt på.
