

**Orbán Viktor Miniszterelnök részére
Pintér Sándor belügyminiszter részére**

Dátum: 2024. december 11.

Rendkívüli aggodalomról szóló közlemény a COVID-19 módosított m-RNS vakcina biztonságosságával és minőségével kapcsolatosan az északi és balti országok, valamint az Egyesült Királyság miniszterelnökei és kormányzati szervei számára. Más európai országok képviselői, akik osztják aggodalmainkat, azóta csatlakoztak a válaszára vonatkozó felhíváshoz.

Ausztrál mintákban ¹ túlzott mennyiségű maradvány DNS-t azonosítottak, ami megerősíti a Franciaországból ², Németországból ³, Kanadából ⁴ és az USA-ból ⁵ származó adatokat.

Az idegen DNS-nek a sejtekbe lipid nanorészecskékkel (LNP-k) ⁶ történő bejuttatása károsíthatja az emberi DNS-t, ami génállományon belüli ingatlansághoz, rákhoz és más rendkívül súlyos állapotokhoz vezethet.

Politikusok és szakképzett szakemberek nemzetközi csoportjának tagjaiként komolyan aggódnak a COVID-19 módosított m-RNS vakcinák lakosságunkra gyakorolt hatásai miatt, és azonnali felfüggesztésüket követeljük. A COVID-19 módosított m-RNS termékek bevetésével kapcsolatban a figyelmét három olyan kulcsfontosságú kérdésre kívánjuk felhívni, amelyek mélyreható hatással vannak nemzeteink polgárainak egészségére.

- A COVID-19 vakcinákat soha nem vizsgálták a vírusátvitelt gátló képességük ⁷ szempontjából. Következésképpen az orvostermékeket szabályozó hatóságok, valamint a kormányok és kormányzati szervek félrevezették az embereket annak érdekében, hogy rákényszerítsék őket a termékek elfogadására.
- A COVID-19 vakcinák példátlanul nagy számú bejelentett mellékhatást ⁸, köztük haláleseteket ⁹ okoztak. A nyilvános adatok megismételhető elemzése ^{10 11 12 13} azt mutatják, hogy szerencsejáték szerű volt, hogy melyik adagot kapta meg valaki, és hogy milyen mellékhatásokat tapasztalhatott.
- Több független tudós által végzett elemzések bizonyítják, hogy a Pfizer és a Moderna termékeinek injekciós üvegeiben túlzott mennyiségű plazmid DNS-maradvány található - ez az idegen DNS a gyártási folyamatok mellékterméke, és soha nem szabadott volna bele kerülnie a kereskedelmi forgalomban kapható injekciós üvegekbe.

A fenti pontok jelentős kockázatot jelentenek az emberi egészségre nézve, amelyek számszerűsítését azonban az egészség-felügyelettel megbízott szabályozó hatóságok módszeresen elkerülték. Ezért a nyilvánosság nevében a következőket szorgalmazzuk:

- A COVID-19 módosított m-RNS vakcinák használatának azonnali leállítását és a termék visszahívását.
- Független és átlátható vizsgálatot a jóváhagyásukkal és felhasználásukkal kapcsolatosan.
- Olyan tudományos bizonyítékokat, amelyek igazolják, hogy egyáltalán nem áll fenn az emberi DNS károsodásának kockázata.

„Figyelem felhívás a módosított m-RNS-kezelések lehetséges ártalmaira” NORTHGroup.info

3. változat

Részletesebb tájékoztatásért kérjük, hogy tekintse meg a mellékelt [tudományos összefoglalót](#). Ezeket az ismereteket figyelembe véve egyértelmű válaszokat kérünk a következő kérdésekre *a szabályozási kötelezettségek tekintetében*:

1. *Mikor fog megkezdődni a független, átlátható, nyilvános és bírósági vizsgálat a COVID-19 elleni módosított m-RNS-vaksinák biztonságosságával és minőségével kapcsolatos aggályok kivizsgálására a rendelkezésre álló bizonyítékok alapján?*
2. *Mikor lesz az m-RNS vakcinák és a rák, a meddőség, vagy más heveny, idült, és genetikai betegségek közötti összefüggés tudományos szempontból kellő mértékben kivizsgálva?*

Ehhez a jelenlegi emberiség és a jövő nemzedékek egészségét fenyegető veszélyhez tudományos alátámasztással azonosítottuk a kockázatokat. Tisztelettel kérjük, hogy cselekedjen országa polgárainak érdekében, amire megválasztották.

A legnagyobb aggodalommal és tisztelettel,

az ÉSZAKI csoport tagjai nevében, az aláírók teljes listája itt olvasható:
