Aviso de extrema preocupação sobre a segurança e qualidade da vacina de mRNA modificado para a COVID-19 aos primeiros-ministros e órgãos dirigentes dos países nórdicos e bálticos, Reino Unido e Portugal.

Níveis excessivos de ADN residual identificados em amostras australianas (1) confirmando dados de França, Alemanha, Canadá e EUA (2-5).

A introdução de ADN estranho nas células através de nanopartículas lipídicas (LNPs) pode danificar ADN humano que conduz a instabilidade genómica, cancro e outras condições.

Enquanto grupo internacional de políticos e profissionais qualificados, estamos seriamente preocupados sobre os efeitos das vacinas de mRNA modificadas para a COVID-19 nas nossas populações e apelamos à sua suspensão imediata. Queremos centrar a vossa atenção em três questões críticas relativas à implementação de produtos de mRNA modificados para a COVID-19 que têm profundas implicações para a saúde dos cidadãos das nossas nações:

- As vacinas COVID-19 nunca foram testadas quanto à sua capacidade de bloquear a transmissão viral (6). Assim, os reguladores de produtos médicos, bem como governos e organismos governamentais, induziram as pessoas em erro para as coagir a aceitar estes produtos.
- As vacinas COVID-19 resultaram num nível sem precedentes de efeitos secundários notificados (7), incluindo mortes (8). Análises reprodutíveis de dados públicos (9-12) mostram que se tratava de uma lotaria quanto ao lote que uma pessoa recebeu e os efeitos secundários que pode ter experimentado.
- Análises por múltiplos cientistas independentes evidenciam níveis variáveis e excessivos de ADN plasmídeo residual em frascos de produtos da Pfizer e da Moderna - este ADN estranho é um subproduto dos processos de fabrico e que nunca deveria ter sido transformado em frascos para injetáveis comerciais (1-5).

Os pontos acima levantam riscos críticos, mas não quantificados, para a saúde humana que foram sistematicamente evitadas pelas entidades reguladoras encarregadas da sua supervisão. Por conseguinte, em nome do público, apelamos a:

- Suspensão imediata do uso de vacinas de mRNA modificadas pela COVID-19 e de um produto semelhante.
- Uma investigação independente e transparente sobre a sua aprovação e utilização.
- Evidência científica que documenta que não há absolutamente nenhum risco de danos para o ADN humano.

Para informações mais pormenorizadas, consultar os resumos científicos que acompanham a presente comunicação.

Tendo em conta esta informação, solicitamos respostas claras às seguintes questões:

1. O que é necessário para instaurar um inquérito público e forense independente e transparente nos processos regulatórios que levam à aprovação desses produtos?
2. Se há algo que impeça o ministro de iniciar e priorizar pesquisas em potenciais ligações entre as vacinas de mRNA e cancro, infertilidade ou outros casos agudos, doenças crónicas e genéticas.

Com esta ameaça cientificamente apoiada à saúde humana atual e futura, identificamos o risco. Pedimos-lhe, respeitosamente, que haja no interesse dos cidadãos do seu país, com base nos quais foi eleito.
