

Till: Statsminister Ulf Kristersson och Socialminister Jakob Forssmed

Datum: 25 november 2024

Meddelande till statsministrarna och de styrande organen i de nordiska och baltiska länderna samt Storbritannien om att vi hyser en extrem oro över covid-19-vaccinets säkerhet och kvalitet med modifierat mRNA.

Förhöjda nivåer av kvarvarande DNA har identifierats i australiensiska prover¹, vilket bekräftar uppgifter från Frankrike, Tyskland, Kanada och USA²⁻⁵.

Införsel av främmande DNA i celler via lipidnanopartiklar (LNP) kan skada mänskligt DNA och leda till instabilitet i arvsmassan, cancer och andra mycket allvarliga tillstånd.

Som en internationell grupp av politiker och kvalificerade yrkesverksamma är vi mycket oroade över effekterna av de covid-19-modifierade mRNA-vaccinerna på våra befolkningar och kräver att de omedelbart stoppas. Vi vill rikta er uppmärksamhet på tre kritiska frågor om användningen av covid-19-modifierade mRNA-produkter och som har djupgående konsekvenser för våra medborgares hälsa.

- Covid-19-vaccinerna testades aldrig för sin förmåga att hindra virusöverföring⁶. Därför vilseledde tillsynsmyndigheterna för medicinska produkter, liksom regeringar och statliga organ, människor för att tvinga dem att acceptera dessa produkter.
- Covid-19-vaccinerna resulterade i en aldrig tidigare skådad nivå av rapporterade biverkningar⁷, inklusive dödsfall⁸. Reproducerbara analyser av offentliga data⁹⁻¹² visar att det var ett lotteri vilket vaccinparti (batch) en person fick och vilka biverkningar hen kan ha upplevt.
- Analyser av flera oberoende forskare visar på varierande och alltför höga nivåer av kvarvarande plasmid-DNA i flaskor med Pfizers och Modernas produkter – detta främmande DNA är en biprodukt av tillverkningsprocesserna och borde aldrig ha hamnat i de kommersiella flaskorna¹⁻⁵.

Ovanstående punkter ger upphov till kritiska men okvantifierade risker för människors hälsa, som systematiskt har undvikits att analyseras av de myndigheter som ansvarar för tillsynen. Vi kräver därför å allmänhetens vägnar:

- Ett omedelbart stopp för användningen av covid-19-modifierade mRNA-vacciner och en återkallelse av produkten.
- En oberoende och transparent utredning av deras godkännande och användning.
- Vetenskapliga bevis som dokumenterar att det helt saknas risker för skador på mänskligt DNA.

För mer detaljerad information, se de medföljande vetenskapliga sammanfattningarna. Med beaktande av denna information ber vi om tydliga svar på följande frågor:

1. Vad krävs för att inrätta en oberoende och transparent offentlig och rättsmedicinsk undersökning av de regleringsprocesser som ledde fram till godkännandet av dessa produkter?
2. Finns det något som hindrar ministern från att inleda och prioritera forskning om potentiella kopplingar mellan mRNA-vacciner och cancer, infertilitet eller andra akuta, kroniska och genetiska sjukdomar?

Med detta vetenskapligt underbyggda hot mot människors nuvarande och framtida generationers hälsa har vi identifierat risken. Vi ber er respektfullt att agera utifrån intresset av ert lands medborgare, som har valt er.

Med stor oro och i all välvilja,
