Subject: TO/JMHSC/11084/24 - Dr Rosamond Jones RE: An international safety concern
To:

Dear Dr Jones

Thank you for your email below. I have been asked to reply and apologise for the delay in doing so.

Thank you for your thoughts and comments. All vaccines used in the UK have been approved as safe and effective by the independent expert organisation, the Medicines & Healthcare products Regulatory Agency (MHRA). The MHRA continually monitors safety during widespread use of any vaccine to ensure vaccines are performing as expected, to identify any new side effects that may arise, and to ensure the benefits continue to outweigh the risks.

Yours sincerely,

[Tîm Busnes y Llywodraeth](#)/Government Business Team
